

# ORP PROBES

## ORP PROBES\_ SRH-1-PT-5M

### Features:

- Low maintenance sealed unit
- Gel filled reference cell
- BNC connection with Boot Plastic Cover
- Cable length 5 meter
- Ceramic Diaphragm high accuracy

### Field Application:

- General laboratory
- Drinking Water
- Swimming pools
- Water monitoring and control plan

### Features:

- Range:  $\pm 1000$  mV,
- Temperature: 0..60 °C,
- Pressure: 6 Bar
- Trasperten plastic Body
- **Single junction** with KCL Gel and **Ceramic diaphragm**.
- **YELLOW** cup with **5 meter cable** size 3mm, BNC plug included with yellow Boot cup.
- Batch production with 4 number to indicate Week and Year production.
- Single Package with neutral carton box.
- Neutral Label.

## TECHNICAL CHARACTERISTICS

|                        |   |
|------------------------|---|
| ORP Range:             | $\pm 1000$ mV                           |
| Temp. Range:           | 60° C                                   |
| Pressure Range:        | up to 6 bar                             |
| Body material:         | Epoxy                                   |
| Diaphragm type:        | one Ceramic                             |
| Mechanical Mounting:   | $\varnothing 12$                        |
| Electrical Connection: | 5 m cable + BNC (yellow BOOT Cup)       |
| Reference:             | GEL                                     |
| Offset                 | $\pm 12$ mV                             |
| Storage temperature    | +2 $\pm$ 50 °C ( <b>do not freeze</b> ) |
